Experience

Full Stack Engineer at Newbit, Este, PD, Italy 10/2019 – 5/2020

Taught myself .NET Core and ASP.NET Core and developed from scratch a newsletter management platform for a B2B business for their email marketing campaign.

Supported customers for other products of the company
(C#, ASP.NET Core, JavaScript, jQuery, SQL Server)

Mentorship Program at F# Software Foundation, Remote 2/2020 – 3/2020

Participated as mentee at the mentorship program, introducing myself to the language with a focus on the ecosystem and the tooling
